Abstract. *The purpose of the research is to study the relationship between the techers' discipline of techers and academic supervision and the smoothness of teaching and learning process in SMPN 4 Loa Kulu. The study was conducted in SMPN 4 Loa Kulu by 32 respondents derived from the head master and teachers. The instrument of the study was questionnaires dealing with disciplines, academic supervision, and the smoothness of teaching and learning process.The techniques used to analyze the data obtained from the research were descriptive statistics, simple and multiple correlations, and simple and multiple regressions. The results of the study indicate that: (1) There is positive and significant relationship between teachers' discipline and the smoothness of teaching and learning process in SMPN 4 Loa Kulu; (2) There is positive and significant relationship between academic supervision and the smoothness of teaching and learning process in SMPN 4 Loa Kulu; and (3) There is positive and significant relationship between teachers' discipline together with academic supervision and the smoothness of teaching and learning process in SMPN 4 Loa Kulu. The results of the study give implications that to increase the smoothness of teaching and learning process in SMPN 4 Loa Kulu is needed to pay attention to teachers' disciple and academic supervision.*

Key Words: *discipline, academic supervision, smoothness of teaching and learning process*
